CORE STRENGTHS

- UX / INTERACTION DESIGN
- FRONTEND IMPLEMENTATION
- DESIGN SYSTEMS
- ACCESSIBILITY
- CROSS-FUNCTIONAL DELIVERY
- RAPID PROTOTYPING

STACK

- TYPESCRIPT
- REACT
- NEXT.JS
- TAILWIND CSS
- NODE.JS
- SVELTEKIT
- POSTGRESQL
- FIGMA

LANGUAGES

English: full working proficiency

Hungarian: native

PROFILE

UX and frontend engineer with a design-led foundation and a strong bias for shipping. I bridge product thinking, interaction design, design systems, and frontend implementation to turn complex software into clear, expressive experiences.

EXPERIENCE

AXON Networks

OCT 2022 - PRESENT

UX & Frontend Engineer

- Work across UX, UI, frontend implementation, and product iteration on AXON Orchestrator with engineering and analytics teams.
- Design interactive prototypes and interface foundations that make complex workflows easier to reason about and ship.
- Bring technical product thinking and AI-fluent ideas into the experience layer while keeping usability and implementation aligned.

MapsPeople

JAN 2022 - APR 2022

UX Designer Intern

- Improved MapsIndoors CMS through research, exploration, and animated prototyping work.
- Contributed to a live design system and learned how accessibility, documentation, and product constraints shape SaaS delivery.

EDUCATION

University College of Northern Denmark

AUG 2020 - JUN 2022

AP Degree in Multimedia Design

Focused on UX/UI, frontend development, content strategy, research, and the design-to-code process through practical company-connected projects.

FOCUS

Design systems that teams can extend without friction.

Motion and interaction that feel polished without slowing the product down.

Design-to-code execution with strong product and engineering awareness.

Interfaces for ambitious software, not just marketing surfaces.

Danish: limited working proficiency

German: elementary proficiency

French: beginner proficiency
